

# HOW TO BUILD YOUR TEEPEE

## IF YOU'VE ALREADY ASSEMBLED YOUR TEEPEE BEFORE

You don't have to dismantle and assemble your teepee every time you want a tea party or an adventure for your kid.

All you have to do is simply place the folded teepee vertically up, with the knot on the top. Spread the bottom till the fabric stretches.

When not in use, you can fold the teepee like an umbrella and keep it in a corner.

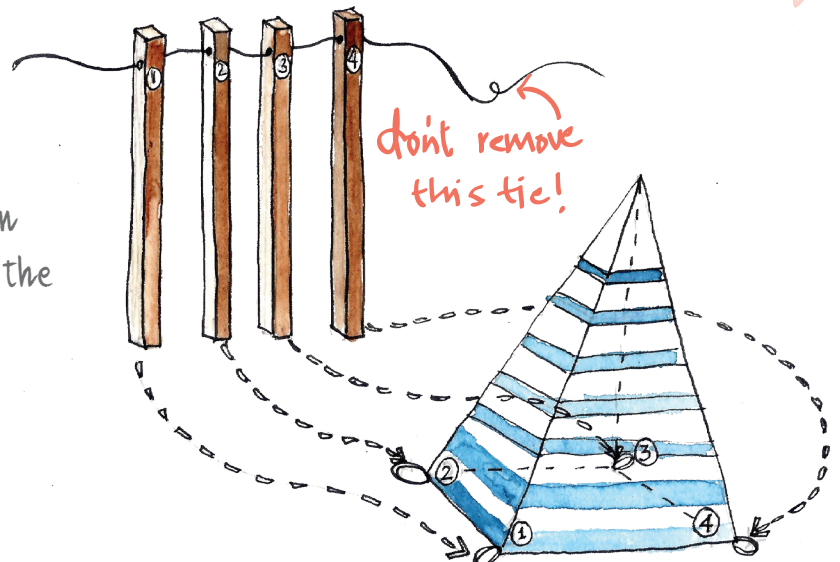

## STEP 1 : UNBOX

In this box, you will find:

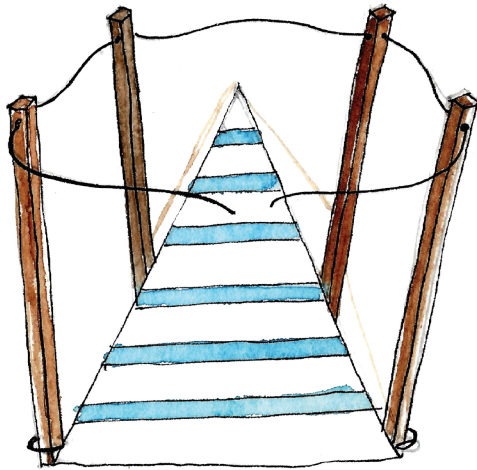

1. Four **WOODEN POSTS** numbered 1-4.
2. One **CONICAL CANVAS** fabric.
3. **TIE/ROPE** to fasten the posts.
4. This easy peasy **GRAPHIC** User manual to help set up your teepee.
5. A cute letter from Nestle In A Teepee team.

## STEP 2 : MATCH THE NUMBERS

Make sure the correct numbered post enters the correct numbered pocket on the canvas. Post 1 and 4 belongs to the **FRONT** of the teepee, while 2 and 3 belong at the **BACK**. Pretty simple right?

# NESTLE IN A TEEPEE

## STEP 3 : ALIGN THE POSTS

Bring the posts together as shown in the picture.

Make sure the middle poles go back and the end poles are in the front.

## STEP 4 : A KNOTTY AFFAIR

Pull the rope (tie) and make a knot, continuously wrap the rope around and in between the posts as shown in the figure. The more you wrap, the more stable it becomes.

## STEP 5: MAY THE ADVENTURE BEGIN

Place your little **EXPLORER** in the finished teepee, and may the Adventure begin!

Step back and admire as your little one crawls in and out of the teepee giggling and laughing with joy!
